

Fiberglass Backing Plate (Disc) For Cut Off Wheel (TEFLON Baking Plate (Disc) Substitute)

SUNWAY INDUSTRIES

Through our arduous R & D of many years, we have succeeded developing a TEFLON substitute - Fiberglass Baking Plate for Cutting Off Wheel and Depressed Center Wheel. In the past 3 years, this substitute of TEFLON has got very good comments by many manufacturers of Cutting Off Wheel and Depressed Center Wheel, who have used our Fiberglass Baking Plate. With our production further maturity of our Fiberglass Baking Plate, we are pleased to introduce our new product to you in the hope to decrease your production cost.

Also we are sure that you will find two remarkable merits of this substitute after you use them. One is that the cost for the Fiberglass Baking Plates (Disc) is much more cheaper than TEFLON Baking Plate (Disc)/Aluminium Plate while they have the same function with TEFLON Baking Plate; The other is that the Fiberglass Baking Plates (Disc) could enable the color of the cut off wheel/depressed center wheel look much better after hardening.
